

# SIMULATIONiQ™ Mobile

**SIMULATIONiQ™ Mobile** is a complete standalone video capture-to-debrief solution for on-the-go simulation training in any environment. With SIMULATIONiQ Mobile, users can start recording within five minutes of booting up the laptop/tablet.

EMS solutions are robust, scalable, easy to use, and can grow with you! In addition to its standalone functionality, SIMULATIONiQ Mobile enables cloud or on-site integration with a fully functional simulation management platform. Videos recorded using SIMULATIONiQ Mobile can be automatically uploaded to **SIMULATIONiQ™ Enterprise**, which provides case/scenario management, session scheduling, EHR, statistical data analysis, inventory management, and more. And with EMS' TotalCAREiQ™ support, your investment is protected for the long term.

## **SIMULATIONiQ™ Mobile Enables:**

- Wireless, battery-powered mobility
- Manual focus (if needed)
- Touchscreen capability for on-the-go or in-situ training
- Easy to set-up and use: requires no user training
- Software automatically discovers additional rooms and debriefing systems
- Real-time integration with Laerdal and Gaumard simulators
- **Multi-room viewing with SimBROWSER™ (add-on), a secure, permission-based web application to view your live and recorded videos from a computer, tablet or hand held device connected to your institution's network**

Laptop and  
Wireless Cameras  
for Ultimate  
Mobility

## SIMULATIONiQ™ Mobile is available in 2 variations with multi-room viewing

### SIMULATIONiQ™ Mobile

A complete standalone video capture-to-debrief solution.

- Capture audio & video, and immediately debrief after recording
- Bookmark and annotate live video or during playback
- Export video and data to an external hard drive or USB drive
- Store up to 300 hours of video (500GB storage)
- Multi-room viewing
- Ability to integrate with **SIMULATIONiQ Enterprise Cloud** or **SIMULATIONiQ Enterprise** installed at your location - *contact your EMS representative for options*

### SIMULATIONiQ™ Mobile V (Vitals)

A complete standalone video capture-to-debrief solution with simulator integration.

- All SIMULATIONiQ Mobile features plus integration with **Laerdal** and **Gaumard** simulators and **iSimulate** simulation systems.
- Capture simulator's vital signs and events in real time

#### Add-on: SimBROWSER™

**SimBROWSER: Secure, permission-based web application to view your live and recorded videos from a computer, tablet or hand held device**

- Automatically discovers other SIMULATIONiQ Mobile or SIMULATIONiQ Mobile V units on the same network
- Watch live video sessions being recorded on any SIMULATIONiQ Mobile, SIMULATIONiQ Portable, or SIMULATIONiQ One Room units on the same network
- Debrief using “Live View” or recorded video from any session

### STANDARD OUT-OF-THE-CASE COMPONENTS

- One touch-enabled Windows 8 laptop/tablet
- Two GorillaPod Tripod stands
- Two High Definition 1080p cameras with built-in microphone and power supply
- Two battery packs
- Cables and accessories
- Carrying case (21" X 15" X 8")
- Instructional guide

*Optional backpack*

#### Smarter Simulation. Better Outcomes.™

*EMS' mission is to advance the quality and efficiency of clinical care through smarter simulation, leading to better outcomes. EMS helps to build mastery around: clinical skills, collaboration, communication, and competency for improved patient safety and quality of care.*
